KLOVE Radio is an uplifting and inspiring addition to our community. The service they provide touches the lives of many people who may not have the opportunity to hear the message in another way. If KLOVE is not available to this area, I hate to think of how many people lose out on the inspirational messages they convey. It's the only radio station we listen to that is safe for the family; and I don't have to worry about vulgarity or filthy songs being played. They play uplifting music and provide a wonderful ministry. KLOVE is needed in all communities to help reach the lost. This music is a wonderful ministry to those in need. Please do not allow anything to be passed that would remove KLOVE from our listening area.
